Notes: The shirts are Jerzees ring-spun cotton. These measurements were made with a yardstick with the shirts laid flat on a table. The men's shirts are cut very straight up and down. The women's (medium only) are shaped to be a bit smaller at the waist, then flare out again. Only one of each size was measured.

Shrinkage note: I washed and dried a men's large. After washing it was an inch smaller across the shoulders and waist than the large (above), but I don't know if it started with the same measurements. –Ellie Briscoe
