

Ball Aerospace & Technologies Corp.

Library Services

This historic photo taken in 1956 shows the first building on the Ball Aerospace campus, looking north across Arapahoe at the Commerce Street intersection. And that's our building!

We're here!

This photo shows the Boulder campus looking north from Arapahoe Avenue. The Library has its own parking lot!

**Ball Aerospace
& Technologies Corp.**

Our reference section

- L-R standing: Victoria Pellerito, Vicki Schneller, Marcy Rodney
- Seated: Carol Kirkwood

A few facts about the company

- Celebrating our 50th anniversary this year
- About 3,000 employees
- Most in Colorado, in Boulder, Broomfield & Westminster
- Other offices in Dayton, OH; Albuquerque, NM; Chantilly, VA; Washington DC; Warner Robins, GA & Australia
- We're a wholly owned subsidiary of Ball Corp., one of the world's largest packaging companies and a Fortune 500 company headquartered in Broomfield.

Some of our projects

- The Hubble – we put the glasses on it
- The Chandra – aspect camera & science instrument module
- The Spitzer – Cryogenic telescope assembly, science instruments
- Deep Impact – the bus & the instruments
- RALPH – same wattage as a household nightlight. Just launched on New Horizons on Jan 17, on its way to Pluto
- James Webb Space Telescope – expected launch in 2013
- Antennas
- Remote sensing
- Cryogenics
- Satellites ‘r’ us

A few facts about the library

- We've been here since 1961
- The company voted the library the outstanding team in 2001
- We support engineers and scientists, business development, training, HR, contracts – all facets of the business.
- Requests have increased more than 240% since 2000
- We have close ties to CU, both historically as a company and as a library
- About 5,500 books, about 40 current hard copy magazine subscriptions
- E-resources growing and growing
- We report to Internal Communications

And yet more about the library – our services
