

Joint Event: SLA SF BAY REGION CHAPTER & BAYNET LIBRARIES

What: *Google Book Search Settlement: Implications and Impacts*

When: Wednesday, February 11, 2009

Where: Elephant & Castle Pub and Restaurant, 424 Clay St., San Francisco, CA 94111 (at the corner of Clay and Battery). (415) 268-3900.

In October 2008, Google settled a lawsuit brought by the Authors Guild and the Association of American Publishers regarding Google Book Search. The settlement, if implemented, could revolutionize access to out-of-print books, but comes with restrictions that have been the subject of significant debate. This presentation will offer an overview of the settlement and its implications, and some insight into Stanford University's approach to the agreement. Join your fellow librarians and bring your thoughts and questions regarding the Google Book Search project and the settlement.

Mimi Calter is Special Projects Librarian & Intellectual Property Manager for the Stanford University Libraries & Academic Information Resources. She manages a variety of special projects within the Director's Office of Stanford University Libraries, with a special emphasis on copyright issues. Her projects include the Stanford Copyright Renewal Database.
