

Google - Behind the homepage Google - Behind the homepage

SLA San Diego Chapter Meeting
September 8, 3pm-5pm

Despite all that white space on its home page, Google is far from simple. How does Google rank its results? How often are sites indexed? How much of the Web does Google cover? Does Google automatically search for variations of your search terms? How does Google deal with punctuation? What languages does Google translate? These and many more questions that you've wondered about (but didn't have time to investigate) will be answered by our speaker Betsy Chessler.

We will be the guests of the Morrison and Foerster law library. This is a new state of the art library. We will have the opportunity to tour library after Betsy's talk.

We will conclude with no-host dinner at Tio Leo's. Please RSVP on the dinner.

Location: Morrison & Foerster – Conference Room
12531 High Bluff Dr., Suite 100
Del Mar, CA

Directions: <http://www.mofo.com/about/offices/sandiego/index.html>
