A new reference for chemists!

The electronic version of **Science of Synthesis** including the complete **Houben-Weyl Archive**

The image displays two overlapping web browser windows. The background window is the 'Science of Synthesis' interface, showing a search results page for 'Category: Reactions'. It lists various reaction types such as 'Friedel-Crafts Alkylation', 'Friedel-Crafts Acylation', and 'Friedel-Crafts Alkylation with Alkyl Halides'. Below the list, there is a chemical reaction scheme showing the Friedel-Crafts alkylation of benzene with ethyl bromide in the presence of AlCl₃ to form ethylbenzene.

The foreground window is the 'Houben-Weyl' interface, displaying the title page of 'METHODEN DER ORGANISCHEN CHEMIE (HOUBEN-WEYL)'. Below the title, there is a table of contents listing various organic chemistry topics and their corresponding page numbers.

Science of Synthesis

- Highly evaluated information
- Synthetic methods and full experimental procedures
- Knowledge and expertise from 1000 authors

100 years Houben-Weyl online!

Editions 1 – 4 available online!

An unrivaled source of information about synthetic methodology.

Access to methods from the early 1800s to-date.

Pharmaceutical Substances

Database of 2300 approved drugs

- Synthetic route of industrial process(es)
- Patent information
- Trade names and marketing companies in 6 major world territories

Synthesis and Synlett

- **Archive** online back to Volume 1, Issue 1 for a one-time fee
- Academic institutions may license the **Science Package**

Natural Standard

Natural Standard Online Database

provides scientific, evidence-based information about herbs, and supplements
